

# National Survey of Student Engagement

## 2005 README File

Below is a brief description of each file on your NSSE 2005 Institutional Report CD. If you have difficulty opening any of these files or have questions about their contents, please contact NSSE at (812) 856-5824.

### **Institutional Data File (SPSS 12.0)**

Student responses to the survey, as well as to experimental and consortium items (if applicable)

### **Means and Frequency Reports (Excel 2003)**

Means and t-test results for all engagement items comparing your institution to the appropriate Carnegie Classification, the national norms group, and consortium or selected peer group

Frequency distributions on all survey items for your institution, the appropriate Carnegie Classification, the national norms group, and your consortium or selected peer group

### **Respondent Characteristics (Excel 2003)**

Institutional response rates by class, sampling error, as well as a summary of respondent characteristics

Comparisons against the appropriate Carnegie Classification and the national norms group

### **Codebook(s) (Excel 2003)**

A description of each item on the survey and details on item coding, including any experimental items

If applicable, a separate codebook for consortium

### **Faculty Survey of Student Engagement (if applicable)**

If your institution participated in the 2005 Faculty Survey of Student Engagement (FSSE), a report summarizing faculty responses and the differences in perceptions between faculty and students (Excel 2003)

FSSE Institutional Data File of all faculty respondents (SPSS 12.0)

FSSE Codebook (Excel 2003)

### **NSSE PowerPoint Presentation (PowerPoint 2003)**

Templates to assist you in presenting your NSSE results
