

BACHELOR OF BUSINESS ADMINISTRATION IN SUPPLY CHAIN MANAGEMENT

Why Tiffin University School of Business?

The faculty within the School of Business at Tiffin University bring theory and practice together in the classroom. They also have both an academic background and practical knowledge from industry. This means that graduates from the School of Business at Tiffin University have a distinct advantage when entering the workforce. The Peregrine exam, a widely adopted assessment across many colleges and universities nationwide, measures the business knowledge that soon to be graduates have across all aspects of business. The chart (right) illustrates how Tiffin University performed compared to peer institutions for the fall 2023 semester.

What is Supply Chain Management?

With supply chains becoming more complex, competition becoming more intense and the standards for business performance rapidly increasing, companies in every industry are searching for supply chain management professionals. The BBA in supply chain management will prepare you to be conversant in the language, applications and techniques of supply chain management, enabling you to help meet organization's supply chain needs.

Why study Supply Chain Management?

Our professional program is all about the real world of supply chain management. Students will learn about production, shipment and distribution of products. Covering everything from inventory to production to sales, our program will prepare students as specialists who can comprehend and manage the entire supply chain. They will learn collaborative methods to create, produce and deliver goods and services efficiently, ensuring timely and budget-conscious completion. The in-depth understanding our students bring will be crucial to any business that makes and sells products.

As part of the program, students can take the certification examination administered by the American Production and Inventory Control

Society leading to the designation of Certified Supply Chain Professional (CSCP).
