

# "My..." Hype Video Project

**Objective:** Create a 30-60 second "hype" video about something meaningful to you using **CapCut**. Focus on professional quality, creative storytelling, and commercial viability with a central theme.

Examples - **My Day, My Life, My Story, My Moment, My Home, My Weekend, My Vacation, My Garden, etc.**

## What to Include:

- **Visuals:** Photos/videos telling a compelling story.
- **Audio:** Music voiceover or sound effects.
- **Text:** Titles, captions.
- **Effects:** Visual enhancements.
- **Story:** Reflect a moment, day, vacation, passion, etc.

## Tools:

- **CapCut:** Main video editing app (free version, avoid crown icons).
- **Photocircle:** For final submission/sharing.

---

## CapCut Basics:

1. **Download:** Get CapCut from App Store (iOS) or Google Play (Android).
2. **New Project:** Tap + New Project, select your media, then Add.
3. **Editing Tools:**
  -  **Split:** Cut clips.
  -  **Transition:** Smooth changes between clips.
  -  **Audio:** Add music/sounds.
  -  **Text:** Add titles/captions.
  -  **Effects:** Visual effects.
  -  **Speed:** Adjust clip speed.
  -  **Volume:** Adjust audio levels.
4. **Add Music:** Audio → Sounds (CapCut library) or Your Sounds.
5. **Add Text:** Text → Add Text (customize font, color, animation).

---

## Using Templates (Optional but Recommended):

1. **Open CapCut**

2. **Tap "Templates"** (bottom of home screen).
3. **Browse/Search:** Find themes like "Travel," "Hype," "My Day."
4. **Choose:** Select a **free** template (no crown icon) and tap **Use Template**.
5. **Add Media:** Select your photos/videos.
6. **Preview & Export.**

---

## Ethical & Creative Standards:

- **Responsible AI:** You are responsible for AI input prompts.
- **No Copyright:** Do not use copyrighted/trademarked content unless you own it or have permission.
- **School Standards:** Content must comply with ethical, legal, and school standards.
- **Non-discriminatory Storytelling:** Avoid hateful, explicit, violent, illegal, or unsafe content.

---

## Export & Save:

1. **Export:** Tap the **Export** icon (top right arrow).
2. **Resolution:** Choose 720p or 1080p.
3. **Save:** Video saves to camera roll/gallery.
4. **Final Step:** Resize/edit to remove CapCut markers and import to Photocircle.

Photocircle Invite - Open the Camera on your iPhone or Android phone to scan this code.
